

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application.

Please cancel Claim 2 without prejudice.

**Listing of Claims:**

1. (Currently Amended) A motorized cycle having a frame, said frame having a first upper portion supporting a seat and handle set, and a second lower portion supporting front and rear wheels of such motor-driven cycle, said frame further including a generally vertical, intermediate frame portion disposed between and interconnecting said upper and lower frame portions and extending upwardly from said lower frame portion at a point between said front and rear wheels such that a first void is defined between the front wheel and handle set of said motorized cycle and a second void is defined between said rear wheel and said seat of said motorized cycle, said first void having a length equal to or greater than the diameter of said front wheel and said second void having a length equal to or greater than the diameter of said rear wheel.

2. (Cancelled)

3. (Currently Amended) The motorized cycle of Claim 2 wherein said handle set and said seat of said motorized cycle are disposed along a first generally horizontal axis.

4. (Original) The motorized cycle of Claim 3 wherein said front and rear wheels are disposed along a second generally horizontal axis, said second horizontal axis and said first horizontal axes being substantially parallel.

5. (Original) The motorized cycle of Claim 4 wherein said intermediate frame portion extends along a vertical axis that is substantially perpendicular relative said first and second horizontal axes.

6. (Original) The motorized cycle of Claim 5 wherein said motorized cycle further includes at least one hydraulic brake.

7. (Original) The motorized cycle of Claim 6 wherein said motorized cycle utilizes front and rear hydraulic brakes.

8. (Original) The motorized cycle of Claim 5 wherein said motorized cycle incorporates the use of hydraulic steering.

9. (Original) The motorized cycle of Claim 5 wherein said lower frame portion is comprised of a front frame portion coupled to said front wheel of said motorized cycle and a rear frame portion coupled to said rear wheel of said motorized cycle, said front and rear frame portions further having dedicated shock absorbers mounted thereon for engaging with said intermediate frame portion.

10. (Original) The motorized cycle of Claim 5 wherein said cycle is powered by a gas engine.

11. (Original) The motorized cycle of Claim 5 wherein said cycle is powered by an electric motor.

12. (Original) The motorized cycle of Claim 10 wherein said gas engine comprises a 50 cc engine.

13. (Original) The motorized cycle of Claim 5 wherein said front and rear wheels have a diameter or ten inches or less.
